Engaging the Rehab Team in SNF Problem-Solving, Goal Setting & Regulatory Compliance

Far too often, the critical thinking skills of our rehab therapists are under-utilized in promoting the goals and vision of the skilled nursing facility. This program offers thought provoking approaches, for facility leaders and therapy professionals, to bridge the gap between the goals of the rehab department and the mission/vision of the facility. Join us to discuss ways for enhancing communication across departments and disciplines, leading to increased job satisfaction and higher quality of care for your residents.

Learning Objectives:

- Understand the impact of an effective rehabilitation department on achieving and maintaining regulatory compliance.
- Develop a strategy to incorporate your rehabilitation department into the interdisciplinary process to maximize your quality outcomes and reduce risk.
- Discuss effective QAPI approaches that incorporate rehabilitation professionals as facility leaders with a shared vision focused on organizational goals.

Presenter

Sarah Ragone, MS, PT, RAC CT A , QCP, is the Vice President of Reimbursement & Education at Coretactics Healthcare Consulting. She is a dynamic speaker who uses her expertise and passion for teaching to bring education to the forefront. Her 20+ years of experience in long term care allows her to present realistic and practical approaches to sustainable improvements in quality of care and reimbursement. She uses her knowledge in program development and quality improvement to present a holistic and supportive approach to adult learning that elevates interdisciplinary teams to produce positive results.
